LOAN EXHIBITION IN THE OLD COR-CORAN ART GALLERY-A FINAN-CIAL AND SOCIAL SUCCESS.

Washington, April 25 (Special).-Rarely, if ever, have the people of Washington had an opportunity to enjoy a finer or more interesting exhibition than the Loan Exhibition now in progress, which opened on the 11th of this month. Fortunately, those having the matter in charge were A THIEF'S PLUNDER STOLEN FROM HIM BY BOW. able to obtain for the exhibition the old Corcoran Art Gallery, which has been vacant since the gallery was moved to its new quarters, with the exception of a few weeks last year, when the Postal Congress held its sessions there. This gallery is admirably arranged and lighted. The pictures, therefore, are shown to the best advantage, and there was abundant room for the reception-a gala occasion-on the opening night, for the promenade concert and for the crowds that visited it on Sunday.

The exhibition has happily been a financial as well as a social success. The receipts, which have been materially increased by the Sunday openings, will amount to \$3,000, if not \$4,000, and its instructive value can hardly be overestimated. That the opening of the gallery on Sunday has resulted so fortunately is espeas the success of the exhibition was interested people against its being opened on

"The Grandmother," which yet gives an idea of the great talent of this artist—Delacroix, Detaille, Doré, Duplessis, Dupré, Duran—an extremely interesting portrait of Mrs. Barney's daughter when she was a child—Gérôme, Henner, Millet, Benoof, Vernet, Vibert, are some of the French names mentioned in this catalogue, and their work exhibited is quite up to their reputation as artists.

There are fewer artists of the German school represented than of the French, but a number of pictures by the best known and most popular of them add interest to the exhibition. A "Child and Dog," by Lenbach, Germany's great portrait painter, is an exquisite thing, painted with all the delicacy and feeling that characterize the work of this artist. There is an ideal portrait by Markart, one of Defregger's Tyrolese peasants, with whom his name is always associated, and two pictures by Gabriel Max.

The collection of water-colors is a small one, but its catalogue contains some illustrious names. "Victoria," the Dowager Empress of Germany, is signed to a study of still life, loaned by Mr. Kasson, which came into his possession.

but its catalogue contains some illustrious names. "Victoria," the Dowager Empress of Germany, is sizned to a study of still life, loaned by Mr. Kasson, which came into his possession when he represented the United States at Berlin. There are in this section two landscapes by David Cox, a military review by Detaille, which lacks none of the spirit of that artist; an interesting pastoral by L'Hermitte, some pleasing studies by Hopkinson Smith, and a street scene by Magrath that arrests attention.

The local artists have got considerable space. Several landscapes by Max Weyl are scattered through the gallery; Mr. Hinckley exhibits a portrait of his wife, and Mr. Andrews an historical study. "Wat Tyler"; Moser, Gibbs, Nichols and Juliet Thompson show creditable work. The water-color of the crypt in Gloucester Cathedral by Walter Paris is interesting, the details conscientiously worked out. Parker Mann has contributed his "Dutch Canal," and Mr. Messer "Late Afternoon at Weyl's Glade."

Mr. Barclay, who has had a studio here less than a year, can hardly be called a local artist, and it is doubtful if this cosmopolitan would care to be so classed, has two strong portraits, one being of Mr. Kauffman, of 'The Star." an interesting subject, and one of Mrs. Reyburn, wife of a former member of Congress from Penn-wife of a former member of Congress from Penn-

sylvania. Mrs. Reyburn's portrait is a most creditable piece of work and generally conceded to be a great success. "It is just the sort of portrait one would like to leave to her descendants," said a well-known woman in criticising it. The two portraits that attract most attention and create most comment are those of Ada Rehan, painted by Sargent for Mrs. Whitin, and of Mrs. Barney by Vos. They are near each other, and their proximity suggests comparison. The charm of Vos's picture is in the treatment, the color schemes, the graceful pose of the figure—said to have been inspired by Mrs. Barney, who is remarkably clever in this direction, and has in the exhibition a life-size portrait of herself from her own brush. The popular adjective for Sargent's portrait of Ada Rehan is stunning, and perhaps this best describes it. It is a remarkable portrayal of the colebrated actress, just as she stands on the canvas, with a piece of old tapestry for a background, a rich white saitn gown falling in graceful folds from her faultless shoulders, a fluffy fan half open in her hand, as her admirers have often seen her on the stage. Hoth artists, in truth, have caught the character of their subjects. Near Mrs. Barney's portrait hangs a portrait of Mrs. Silson Hutchins by Frince Troubetzkol, the husband of Amelle Rives.

An exquisite flounce of point d'Alençon has worked into its pattern the imperial bee and the letter N, and was the property of Marie Louise. A tichu of French applique is also from the wardrobe of that Empress.

The Committee on Miniatures, Mrs. D. Percy Morgan, Mrs. E. F. Andrews and Mrs. G. Appleby, are to be congratulated on the result of their work. It is an extremely difficult matter to make a good collection of this character, and the one at the exhibition is not only large but creditable, although only a few of the pictures are by great artists. Perhaps the most interesting of these miniatures to Washingtonians is the nortrait of Marcia Eurns by Feale, loaned by Dr. Barbaria, curater of the Corcoran Art Gallery. Marcia Burns's father, it will be remembered, at the time the capital was moved to the site on the Potoniac, owned a greater part of what is now Washington, and the name of his only daughter, a beautiful and accompilished woman, who became the wife of John P.

An attractive feature is the serving of tea every afternoon from a dainty table spread in one of the south chambers, where Powers's Greek Slave" stood before the gallery was moved. Mrs. Heardman, Mrs. Richardson Clover, Mrs. Holson, Mrs. Archibald Hopkins and Mrs. Barney, who have willing assistants in the young laties of society, dispense the hospitality on different afternoons. Through this agreeable innovation stiffness and formality lave been banished and the funds of the explicition sensibly increased.

FIRE UNDERWRITERS' NEW RULES

The Tariff Association of New-York (Fire Under writers) yesterday adopted, with some amendments, the report submitted last week by its Committee on Brokerage. The report as a whole will go into effect on May 15, but the clause reducing from 15 to 10 per cent the rate of brokerage on all risks within the scope of the plan just adopted, he-comes operative immediately. The report also authorizes a reduction of 10 per cent in the rates on all risks not embraced in the classes on which the reduction of 331-3 per cent was ordered a few the reduction of 331-3 per cent was ordered a few months ago. Besides fixing brokerage on rated business at 19 per cent, the report abolishes rebates and prohibits the division by brokers of their commissions with other persons. Brokers are not to resort to objectionable practices to procure business or bear the expense of improvements made upon property of policy-holders. Certain classes of risks mentioned in the original agreement prepared by the committee, such as churches, school-houses, armories, clubhouses, asylums, colleges, convents, hospitals, homes, libraries and seminaries, will not be affected by the new rules. Certificates enabling brokers to do business are to be issued at an annual fee of \$10. A committee on brokerage is to be appointed by the association later.

So far the war has not resulted in depleting the ranks of the Army representatives who play at the Dyker Meadow Golf Club. For two seasons the privileges of the links there have been extended to the officers stationed at Fort Hamilton, and several of them have taken up the game with enthusiasm. One of the best is Lieutenant Edward handicap. He is rated on a par with such men as William A. Putnam, Albert G. Jennings and other civilian Dyker Meadow players. The boys of the Lawrenceville, Cutler, Lakewood Heights and several other preparatory schools are not far behind their collegiate rivals this spring. On Saturday the first tournament to be dignified by the name of an inferseholastic championship is going to take place on the links of the Lakewood Golf Club, and Jasper Lynch, who is receiving the entries, expects about thirty competitors. Tunny Richardson, of the Lakewood Heighta School, will doubtless waik off with the individual championship. If reserds count for anything Richardson is already more than a match for some of the veterais. In the Lakewood tourney just closed he defeated Travis and Harriman on successive days, and even held his own for a while against Finlay Douglas in the finals.

The Harbor Hill Golf Club, of Staten Island, has arranged a partial list of team matches for the season, ar follows:

JUSTICE BOLTE CALLED TO ACCOUNT.

SUMMONED REFORE THE APPELLATE TERM FOR

ALLEGED CONTEMPT OF COURT. Municipal Justice Bolte, of the Second Distric Court, appeared before Justices Beekman, Gilder-sleeve and Giegerich, in the Appellate Term of the Supreme Court yesterday, in answer to an order is-Supreme Court yesterday, in answer to an order usued by Justice Beekman, the presiding Justice, directing him to show cause why he should not be adjudged guilty of contempt of court in not furnishing a return as ordered by the court.

The motion arose out of an action brought by Harris Linden against Samuel Brustein to recover

\$68, which was tried by Justice Bolte, who gave judgment in favor of Linden. Brustein's counsel alleged that at the hearing of the case he was about to examine isaac L. Davis, as a witness for his client, when Justice Bolte interposed, and said he would listen to no further testimony. He objected to this ruling, but to no purpose, and when he appealed from Justice Boite's decision, the latter in making his return failed to mention that

latter in making his return failed to mention that counsel had tendered Davis as a witness, and that he refused to take his testimony. The Appellate Term made an order directing Justice Bolts to correct his return, but he paid no attention to it, and the lawyer obtained the order compelling Justice Bolte to show cause why he should not be held guilty of contempt of court.

Ex.Judge Callahan, in behalf of Justice Bolte, pleaded yesterday that the reason why his client did not comply with the order of the Court was because he was unable to make the return, the lawyer having the record of the proceedings in the Municipal Court in his possession. The Appellate Term made an order directing the lawyer to turnish Justice Bolte with the court record, so as to permit him to amend the return, adding that if the Justice continued in his refusal to comply with the order made the application to adjudge him in contempt could be renewed.

"I'll take a pint of milk this morning. Abel. Are we going to have war?"
"Sure. Whoa, there! There ain't no way out of it. ma'am."
"War is a dreadful thing, isn't it. Abel?"
"Yes'm, but there's some things that's worst them war. Thanks. Well, I must be gettin' along."
"You are nearly an hour late this morning. Abel."
"Yes'm. I had to stop an' talk to about forty illts about the war. Mornin', ma'am."—(Chicago Tribune.
